Dear Sir or Madam,

You are in good hands when entrusting Emily Pellegrini with your marketing needs. While interning with us during Summer 2018, she was quick to take the reigns and embrace a task that offered little direction or oversight. She exceeded our expectations as she took the initiative to meet many of our clients in an effort to bolster our relationship with them.

Our firm is funded by venture capital funds such as, VenturesLab (founded by legendary venture capital investor Tim Draper), Plug & Play Technology Center, and a handful of others.

Should you need further verification, please don't hesitate to reach me directly at 415-696-2193 or by email at lgil@verlocal.com.

Sincerely,

Luis F. Gil
